

### Taxi Trailer in Austin

by DL Byron March 19, 2010 - 10:14 AM 0 0

Saw these in Austin as well. That's a taxi trailer for an ad-hoc pedicab and we could use these for our fans and party attendees that don't ride so much. Could parade [Zeldman](#) et al around on one as maybe a ride MC.

Then we'd probably go to fast around a corner and bounce one of them out, but the fun we'd have!
